Tallahassee, FL 32308

Re: Water and Sewer Franchise Pre-application for Apalachee Parkway, Chaires Crossroads, Old
St. Augustine Road, and W. W. Kelly Road

Dear Mr. Brown,

The City of Tallahassee hereby submits a water and sewer franchise pre-application for properties
located on Apalachee Parkway, Chaires Crossroads, Old St. Augustine Road, and W. W. Kelly
Road. The City is currently conducting water system studies and a Master Sewer Plan and will
soon be conducting a Master Treatment Plan that will look at long-range issues. The properties
involved in this pre-application will benefit from long-term regional solutions to wastewater and
water quality issues.

The City has been approached by developer's engineers in Jefferson County to consider regional
treatment plans. Of course, no agreement would be made without the County's full agreement.

In accordance with the policies and procedures for the construction of water and sewer utilities
within Leon County, the City of Tallahassee respectfully submits this water and sewer franchise
pre-application and includes the following:
1. Attachment A-a map of the TLCGIS showing the parcels contained within the
   requested franchise area highlighted in yellow.
2. Attachment B-a list of the names, addresses, and parcel numbers of all the properties
   contained within the pre-application boundary.
3. Attachment C-a map of the TLCGIS showing the existing City water and sewer lines
   in and adjacent to the area. Also Attachment C-2, which provides a general
   description of the proposed water and sewer systems.
4. A check in the amount of $400.00 for the pre-application fee.

If you have any questions, please call me at (850) 891-6177.

Sincerely,

Lynne B. Putnam, P.E.
Engineering Division Manager
